Clark Construction gets 'Top 50' honor

It's a banner year, so to speak, for Pittsburgh remodelers. Clark Construction Co. of Bethel Park was named to Remodeling Magazine's "Top 50" list at the annual Remodeling Leadership Conference in Washington, D.C. last spring.

The local company joins several other area remodelers who were cited by national organizations, publications and supplier/distributor companies for outstanding work. Remodeling Magazine cited Clark for "30 years of consistent quality."

In addition to the magazine honor, owners Ron and Sue Clark were both named to Pella Corp.'s National Remodeling Advisory Board for three-year terms. The Clarks meet regularly with seven other remodeling firms across the United States to discuss future products and planning pertinent to the remodeling industry.

Under the leadership of Ron, his brother, Chris, Sue, 11 carpenters as well as a professional office staff, Clark Construction provides remodeling services in the South Hills. The company also has a kitchen, bath and window showroom.
